

MITSUI BUSSAN COMMODITIES LTD

19th September 2023

Transaction fees and costs associated with the services provided by Mitsui Bussan Commodities.

1. Introduction

Pursuant to Articles 38(1) and 39(7) of the European Market Infrastructure Regulation, Mitsui Bussan Commodities Ltd (MBC) is required, among other things, to publicly disclose the prices and fees associated with the services provided by it (including discounts and rebates and the conditions to benefit from any such discounts or rebates) and the costs associated with the different levels of segregation MBC offers. This document sets out such prices, fees and costs of our LME related services.

4. Matters that may affect the costs

The above costs are based on the maximum rates MBC currently charges. A client's individual circumstances may include factors that allow MBC to apply one of more of the charges specified above at a rate lower than those specified above or not at all. Such factors and their application are determined by MBC and may include the volumes traded by a client, a client's credit rating and a client's membership of a larger group where multiple members of that same group have an active trading account with MBC. MBC reserves the right to modify any of the prices, fees or costs set out above at any time. Existing clients of MBC will be provided prior written notice of any such modifications. Costs for any bespoke transactions or services provided by MBC, which are not

clearing services and are not listed above are subject to negotiation between MBC and the relevant client on a case-by-case basis.
